Classic OptiView diffuser

Simple, easy-to-use, retro-fit daylight dimmer, ideal for:

Bedrooms | Cinema rooms | Classrooms | Office presentation rooms

Parts list

	Qty
Metal ring sections	6
White magnetic diffuser cover plate	1
Twist lock pole	1

To use the magnetic daylight dimmer with your Solatube Daylighting System:

1. Remove the diffuser from your Solatube Daylighting System by twisting it in an anti-clockwise direction.
2. Place the metal ring sections into the channel on the rear of the diffuser and re-attach the diffuser by twisting it clockwise into place.
3. Fix the pole to the magnetic disc by inserting it into the twist fit mechanism (twisting slightly anti-clockwise) and offer it up to the diffuser. The magnetic studs on the cover plate will locate with the metal ring sections and hold the diffuser in place.
4. Twist the pole clockwise to release it from the diffuser cover plate.
5. To remove the diffuser cover plate, insert the pole into the twist fit mechanism and pull down gently.
